

Parkade Cleaning

We would like to announce that CityPro Parkade Services will be onsite to conduct annual parkade cleaning. During this time, we ask that you have your vehicles removed from the property to ensure a thorough cleaning is conducted.

Please note that you are only required to remove your vehicle from your parking stall on the day your phase is scheduled to be cleaned. You are free to resume use of your parking stall on the day that the other phases are being cleaned.

CLEANING SCHEDULE

Friday, May 10, 2019 (9:00pm to 5:00pm)
PHASE I & II

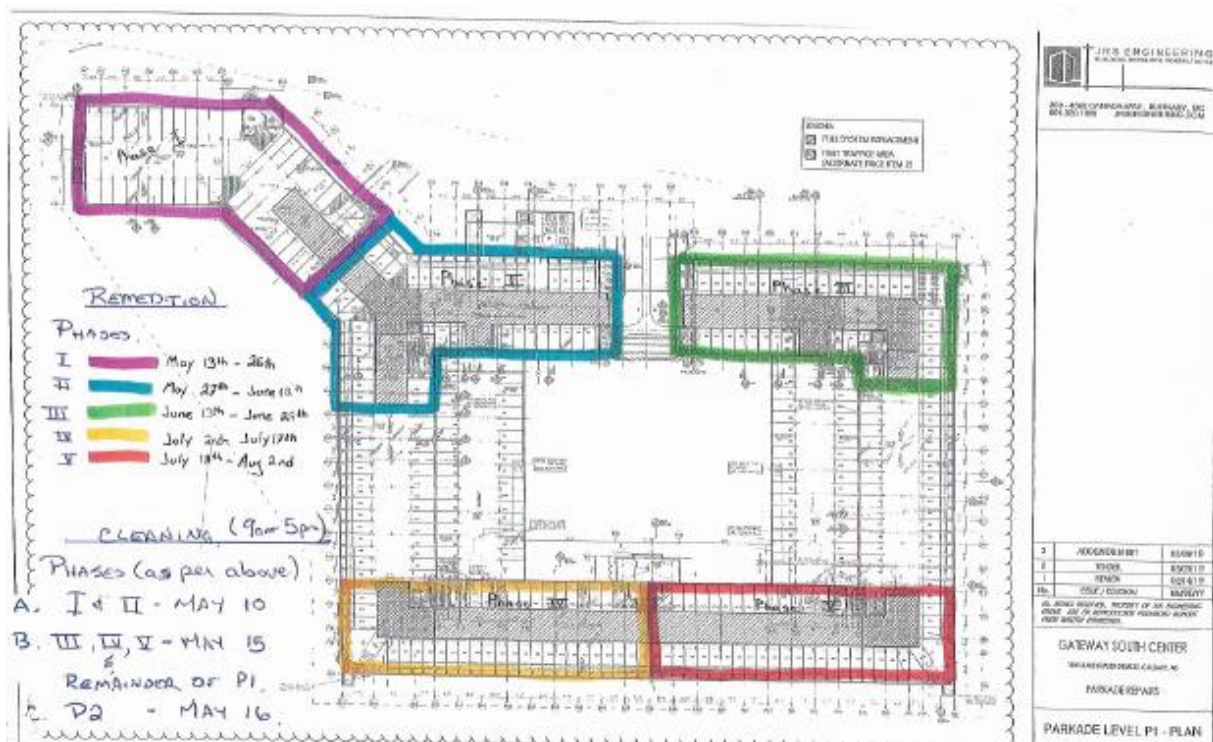

Wednesday, May 15, 2019 (9:00am to 5:00pm)
PHASE III, IV, and V and Remainder of P1 (Bike Storage and Garbage Rooms)

Thursday, May 16, 2019 (9:00am to 5:00pm)
P2 – Whole Level

Parkade Remediation-P1 (only)

Place-Crete Systems LLP has been awarded the Remediation Contract for the P1 Parkade Concrete and Membrane repairs. The schedule is outlined below and will interrupt traffic direction and flow – watch for updates and obey signage for everyone's safety during this time. We have limited the construction work to allow vehicles displaced to park in the SURFACE Visitor Parking area.

CONSTRUCTION SCHEDULE

Annual cleaning and remediation of the parkade is an important maintenance expenditure undertaken by the Corporation; successful completion of this job is dependent upon the co-operation of all residents.

During this time the Board would like to remind residents that ALL items must be removed from their parking stalls and ALL vehicles must be removed from their residing stalls. Failure to comply with this request will result in a fine being levied against your unit as well as towing charges, should we need to have your vehicle relocated during this time.

Thank you for your cooperation.
ON BEHALF OF YOUR BOARD OF DIRECTORS
