

Gateway South Centre...our own little village.

Condominium Corporation Number 0614475

Update: Re - Break-in

We would like to advise all residents that with the recent breach of security at the building, the Board of directors along with C-Era are working very diligently in getting everything repaired and upgraded to help prevent this from happening again. We all appreciate everyone's patience while this takes place. Please be advised that during this process there will be a number of contractor's onsite to help out with all of this.

Due to these unforeseen circumstances, some changes will be taking effect. This will include an upgrade to the FOB and security cameras and the site office will now be located at the south entrance by the lobby.

We also ask that all residents be very diligent in making sure all access points are closed completely when entering and exiting the building and making sure not to let anyone in the building without them gaining access by a fob/key or by the resident they may be visiting. This in turn will also aid in making sure the building is secure for all residents.

If residents notice anything suspicious within the building, please remember to call the Calgary Police Service immediately and then inform C-Era Property Management.

C-Era and the Board will make sure to keep all resident informed as this process proceeds and is fully completed.

Thank you for your patience and cooperation

C-Era property Management
On behalf of the Board of Directors
