

WINDOW CLEANING

Fall Window Cleaning has started, my apologies for the late notice.

They are working today, Sept 3 on the 1700 block (court yard and street side).

Sept 4th they are planning on starting at the 1200 block (court yard) and then move street side towards the 1100 and 1000 blocks.

The remainder of the schedule is difficult to provide due to wind and weather conditions.

As such, we would like all Owner/Occupants to pull their screens now, and to keep off until completion of the work - estimated for September 14th.

All non-Patio/Balcony windows are being cleaned on all levels.

Windows where screens do are not pulled - will be rinsed only. We will not have an opportunity to back track on work already completed so, if missed, they will not be cleaned again until next spring.

Thank you

Wanda Hogg, GM
Gateway South Centre
