Date: November 21, 2017  
**RE: GeoSystem Heating**

Caon will be onsite November 22, 2017 between 8:30am to 5:00pm to work on the GeoSystem.

There will be intermittent heat throughout the building during the day.

They are working on the main header of the system and this intermittent heat will mostly affect ZONE 3 to ZONE 5.

Thank you for your patience and cooperation

C-Era property Management  
*On behalf of the Board of Directors*
